

PARENT EXPECTATIONS

Roles

Homeschool Connections is designed to support parents, not replace them. Know that we are here to help your family to the best of our ability, so that your student can have a great learning experience and grow in knowledge and faith.

Time Management

Please assist your student in managing his or her time. This can include using a student planner, scheduling time for reading and homework, and utilizing time-management tools such as a timer.

Supplies

Make sure your student has the necessary supplies. This can include the course materials and texts, lab equipment, and headset with a microphone.

Weekly Assignment Checks

Schedule a time to sit down with your student each week to go over assignments due, to see if he or she needs assistance. A set time helps you to be aware of your student's progress, catch unintentional errors, and guide your student in learning how to navigate independent learning well.

Weekly Course Material Checks

Please schedule time each week to go into your student's Moodle course page(s). Check to make sure homework is being turned in, in a timely way, and help your student plan to complete what is due soon.

Grades

Instructors post your student's grade in Moodle, and you can access the grades there. You will have access to your student's grades for six months after the course is completed. The instructor does not keep record of grades, aside from the Moodle system, so creating a master document now that you can use for post high school plans can make record keeping easier in the future.

Transcript Information

Though Homeschool Connections does not provide transcripts, you can use the class write ups in Moodle for your student's transcript. Simply copy and paste the write up information into your files for later access, and add the grade to your document when the course is completed.
